MATCO TAILWHEELS

PNEUMATIC

Matco tailwheels use a fiberglass reinforced nylon wheel with an operating load of 450 lbs. It takes over 5000 lbs to fail the wheel and it will hold up in the most rigorous conditions. Can be used with 1-1/4" or 1-1/2" leaf spring. These tailwheels are steerable, and are available with a 6 inch hard rubber solid tire or with 8" Shin pneumatic tire and tube for heavier aircraft. Tailwheel construction is anodized aluminum. Weight: 5 lbs.

SOLID

Matco solid rubber tire tailwheel assy:

P/N 06-01615	\$138.00
Replacement Tire P/N 06-00004	\$69.70

Matco full swiveling pneumatic tire tailwheel assy:

P/N 06-01620	\$191.00
Replacement Tire P/N 06-08000	\$21.75
Replacement Tube P/N 06-08101	\$9.65
